Milltown, WI 54858

Permit # N0-2019-49-2050

Dear Bob:

Enclosed you will find your approved Aquatic Plant Management permit for chemical treatment on Bone Lake in Polk County. Your application has been approved for the area described and may not be expanded. Details of the approved treatment area are as follows:

Specific Project Description (as shown on application form).

1. Early season CLP control on described sites covering a maximum of 32 acres may be done using Endothall and performed while water temperatures are averaging less than 60 degrees F. Treatment after May 31 will be allowed only if it can be shown that CLP is still in an early growth form and not forming significant numbers of turions, and if native plants are not yet actively growing.
2. Treatments to be scheduled to avoid inclement weather/wind that would hinder efficacy. Winds should be at or below 5 mph.
3. All requirements for notification according to NR 107.07 (3) must be satisfied prior to treatment.
4. All riparian residents within 150 feet of a treated areas must be properly notified per NR107.04(4).
5. All boat launches should also be posted.
6. Bone Lake declared spring tribal spearing lake, treatment should not occur until after the tribal harvest has closed on Bone Lake. Time of treatment will be coordinated through area WDNR Fish Management Treaty Coordinator and Mark Sundeen, Aquatic Plant Specialist, Spooner WI.

Please note these selected permit conditions (refer to Section NR 107.08 for complete details):

1. Four-day advance notification of treatment is required unless exempted in Section VII of the application.
2. Treatment sites must be posted a minimum of one day or as specified in the use restrictions on the chemical label.
3. The Aquatic Plant Treatment Record must be submitted within 30 days after treatment or by October 1 if no treatment occurs.
4. **All equipment used for the project shall be de-contaminated following the most current protocols for invasive and exotic species prior to use and after use.**

Thank you for complying with the provisions of Wis. Adm. Code NR 107 concerning the use of aquatic pesticides for plant management. Feel free to contact Mark Sundeen at the Spooner Service Center at 715/635-4074 for further information.

Sincerely,

Mark Sundeen
Water Resource Specialist
WDNR

Section II – Aquatic Plant Control Location

Waterbody to be Treated (waterbody where treatment area is located)

| Bone | | | | Lake Surface Area 1,781 acres | Estimated Surface Area that is 10 Feet or Less in Depth 180 acres |
|----------------|--|--|--|---|--|
| County Polk | | | | Name of Applicator or Firm Lake Restoration Inc. | |

Latitude 45.5045809 Longitude -92.3838000

- Is there more than one property owner? Yes No
- Is there surface water discharge? Yes No
- Does the waterbody have public access? Yes No

If all are no: considered to be a private pond

Adjacent Riparian Property Owner Names (attach sheets if necessary)

1. Homeowners within 150' of treatment have been notified

2. _____
3. _____
4. _____
5. _____
6. _____

Name of Lake Property Owners' Association Representative or Lake District Representative (If none, please indicate)

Bob Boyd

Area(s) Proposed for Control:

Treatment Length Treatment Width

| | | | Estimated Acreage | Average Depth | Calculated Volume |
|----|------------|----|----------------------------------|---------------|-------------------|
| 1. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 2. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 3. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 4. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 5. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 6. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 7. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 8. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |
| 9. | ft X _____ | ft | ÷ 43,560 ft ² = _____ | ac X _____ ft | = _____ ac-ft |

Estimated Acreage Calculated Volume
Grand Total 32 ac Grand Total _____ ac-ft

If the estimated acreage is greater than 10 acres, or is greater than 10 percent of the estimated area 10 feet or less in depth in Section II, complete and attach Form 3200-004A, Large-Scale Treatment Worksheet. Private pond treatments are exempted from this requirement.

Is this area within or adjacent to a sensitive area designated by the Department of Natural Resources?

Yes No

DNR Use: NHI Review? Yes No Describe:

Chemical Aquatic Plant Control Application and Permit WPDES Pesticide Pollutant Permit Application

Form 9200-004 (R 02/17)

Page 2 of 4

Section III – Fees

1. s. NR 107.11(1), Wis. Adm. Code, lists the conditions under which the permit fee is limited to the \$20 minimum charge.

2. s. NR 107.11(4), Wis. Adm. Code, lists the uses that are exempt from permit requirements.

3. s. NR 107.04(2), Wis. Adm. Code, provides for a refund of acreage fees if the permit is denied or if no treatment occurs.

4. Fee calculations: If proposed treatment is over 0.25 acre, calculate acreage fee:
(round up to nearest whole acre, to maximum of 50 acres.)

32 acres X \$25 per acre = \$ 800

If proposed treatment is \leq 0.25 acre, acreage fee is \$0.

Enter Acreage Fee (from above) \$ 800.00

Basic Permit Fee (non-refundable) \$ 20.00

Total Fee Enclosed \$ 820.00

Site Map: Attach a sketch or a printed map of lake indicating area and dimensions of each individual area where plant control is desired and flow of surface water outside treatment area. Also show location of property owners riparian to and adjacent to the treatment area. Attach a separate list of owners and corresponding treatment dimensions coded to the lake map, if necessary.

Section IV – Reasons for Aquatic Plant Control

Is this permit being requested in accordance with
an approved Aquatic Plant Management Plan?

| | | |
|--------------------------------------|--------------------------|---|
| <input checked="" type="radio"/> Yes | <input type="radio"/> No | Treatment Type: |
| | | <input checked="" type="radio"/> Lake <input type="radio"/> Pond <input type="radio"/> Wetland <input type="radio"/> Marina <input type="radio"/> Other |

Goal of Aquatic Plant Control:

1. Maintain navigational channel
2. Maintain boat landing and carry in access
3. Improve fish habitat
4. Maintain swimming area
5. Control of invasive exotics
6. Other: _____

Nuisance Caused By:

- Algae
- Emergent water plants (majority of leaves and stems growing above water surface, e.g. cattails, bulrushes)
- Floating water plants (majority of leaves floating on water surface, e.g., waterlilies, duckweed)
- Submerged water plants (leaves and stems below water surface, flowering parts may be exposed, e.g., milfoil, coontail)
- Other: _____

List Target Plants

Note: Different plants require different chemicals for effective treatment. Do not purchase chemical before identifying plants.

Curly leaf pondweed

Section V – Chemical Control

Alternatives to Chemical Control:

1. Mechanical harvesting
2. Manual removal
3. Sediment screens/covers
4. Dredging
5. Lake drawdown
6. Nutrient controls in watershed
7. Other: _____

Feasible?

| | |
|--------------------------------------|-------------------------------------|
| <input type="radio"/> Yes | <input checked="" type="radio"/> No |
| <input type="radio"/> Yes | <input checked="" type="radio"/> No |
| <input type="radio"/> Yes | <input checked="" type="radio"/> No |
| <input type="radio"/> Yes | <input checked="" type="radio"/> No |
| <input type="radio"/> Yes | <input checked="" type="radio"/> No |
| <input checked="" type="radio"/> Yes | <input type="radio"/> No |
| <input type="radio"/> Yes | <input type="radio"/> No |

If No, Why Not?

Harvester not available, concerns regarding contract harvesting

Too large an area

Too large an area

Not feasible

Note feasible

Note: If proposed treatment involves multiple properties, consider feasibility of EACH alternative for EACH property owner.

If you checked yes to any of the alternatives listed above, please explain your decision to use chemical controls:

Curly leaf pondweed is well-established and nutrient controls are not expected to affect growth short term.

Chemical Aquatic Plant Control Application and Permit WPDES Pesticide Pollutant Permit Application

Form 3200-004 (R 02/17)

Page 3 of 4

Section V – Chemical Control (continued)

Full Trade Name of Proposed Chemical(s)

Aquathol K

Method of Application: Underwater injection and/or surface application

Will surface water outflow and/or overflow be controlled to prevent chemical loss? Yes No

Have the proposed chemicals been permitted in a prior year on the proposed site? All Some None

What were the results of the treatment?

Aquathol K used in the past with satisfactory results

For private ponds and wetlands please ignore next question

Is treatment area greater than 5% of surface area? Yes No

If yes, calculate whole lake concentration (in ppm). Refer to DNR Lake pages dnr.wi.gov/Lakes to answer the following:

Does the lake stratify? Yes No If yes, calculate whole lake concentration using volume above thermocline.
If no, calculate whole lake concentration using total lake volume.

Whole Lake Concentration: _____ ppm

Note: Chemical fact sheets for aquatic pesticides used in Wisconsin are available from the Department of Natural Resources at the following link: dnr.wi.gov/Lakes/plants/factsheets/.

Section VI – Applicant Responsibilities and Certification

1. The applicant has prepared a detailed map which shows the length, width and average depth of each area proposed for the control of rooted vegetation and the surface area in acres or square feet for each proposed algae treatment.
2. The applicant understands that the Department of Natural Resources may require supervision of any aquatic plant management project involving chemicals. Under s. NR 107.07, Wis. Adm. Code, supervision may include inspection of the proposed treatment area, chemicals and application equipment before, during or after treatment. The applicant is required to notify the regional office 4 working days in advance of each anticipated treatment with the date, time, location and size of treatment unless the Department waives this requirement. Do you request the Department to waive the advance notification requirement? Yes No
3. The applicant agrees to comply with all terms or conditions of this permit, if issued, as well as all provisions of Chapter NR 107, Wis. Adm. Code. The required application fee is attached.
4. The applicant has provided a copy of the current application to any affected property owners' association, inland lake district and, in the case of chemical applications for rooted aquatic plants, to all owners of property riparian or adjacent to the treatment area. The applicant has also provided a copy of the current chemical fact sheet for the chemicals proposed for use to any affected property owner's association or inland lake district.
5. Conditions related to invasive species movement. The applicant and operator agree to the following methods required under s. NR 109.05(2), Wis. Adm. Code for controlling, transporting and disposing of aquatic plants and animals, and moving water:
 - Aquatic plants and animals shall be removed and water drained from all equipment as required by s. 30.07, Wis. Stats., and ss. NR 19.055 and 40.07, Wis. Adm. Code.
 - Operator shall comply with the most recent Department-approved 'Boat, Gear, and Equipment Decontamination and Disinfection Protocol', Manual Code # 9183.1, available at <http://dnr.wi.gov/topic/invasives/disinfection.html>

Check if you are signing as Agent for Applicant.

I hereby certify that the above information is true and correct and that copies of this application have been provided to the appropriate parties named in Section II and that the conditions of the permit and pesticide use will be adhered to.

Signature of Applicant

Date Signed

All portions of this permit, map and accompanying cover letter must be in possession of the chemical applicator at time of treatment. During treatment all provisions of Chapter NR 107, specifically ss. NR 107.07 and NR 107.08, Wis. Adm. Code, must be complied with, as well as the specific conditions contained in the permit cover letter.

Page 4 of 4

Section VII – WPDES Permit Request

Is WPDES coverage being requested? Refer to <http://dnr.wi.gov/topic/wastewater/aquaticpesticides.html> for more information.

No: Already have WPDES coverage. WPDES coverage not needed Yes – complete section VII with signature

Select which permit you are requesting: WI-0064556-1 Aquatic Plants, Algae & Bacteria

WI-0064564-1 Aquatic Animals

WI-0064581-1 Mosquitoes & other Flying Insects

Indicate WPDES permittee responsible for the pollutant discharge: Applicator Sponsor

Do you expect the pest control activity will result in a detectable pollutant discharge to waters of the state beyond the treatment area boundary or a pollutant residual in waters of the state after the treatment project is completed?

Yes No

If yes, Identify the pollutant(s): _____

Are you planning to incorporate integrated pest management principles, as specified in the WPDES permit, into your pest control activity to minimize any pollutant residual or pollutant discharge beyond the treatment area?

Yes No

Type of WPDES coverage being requested: One Treatment Site Statewide Coverage

For informational purposes, select areas of WI for most of your aquatic treatments: NW NE SW SE

Is WPDES coverage being requested for more than 1 year?

Yes No If yes, the permittee will remain in "active" WPDES status until a Notice of Termination is submitted.

I hereby certify that I am the authorized representative (as specified in Ch. NR 205.07(1)(g), Wis. Adm. Code) of the pest treatment activity which is the subject of this permit application. I certify that the information contained in this form and attachments is, to the best of my knowledge, true, accurate and complete.

Signature of Authorized Representative

Printed Name

Date Signed

Section VIII – Permit to Carry Out Chemical Treatment (Leave Blank – DNR Use Only)

The foregoing application is approved. Permission is hereby granted to the applicant to chemically treat the waters described in the application during the season of 2019.

Please Note:

If you believe that you have a right to challenge this decision, you should know that Wisconsin statutes and administrative rules establish time periods within which requests to review Department decisions must be filed.

For judicial review of a decision pursuant to ss. 227.52 and 227.53, Wis. Stats., you have 30 days after the decision is mailed or otherwise served by the Department, to file your petition with the appropriate circuit court and serve the petition on the Department. Such a petition for judicial review shall name the Department of Natural Resources as the respondent.

This notice is provided pursuant to s. 227.48(2), Wis. Stats.

To request a contested case hearing pursuant to s. 227.42, Wis. Stats., you have 30 days after the decision is mailed, or otherwise served by the Department, to serve a petition for hearing on the Secretary of the Department of Natural Resources. The filing of a request for a contested case hearing is not a prerequisite for judicial review and does not extend the 30-day period for filing a petition for judicial review.
